A Picnic Sandwich

Bread used for picnics sandwiches should not be less than a day old, for the sake of thin and even cutting. The crust should be trimmed off neatly; the butter should be put on evenly, not in dots. To prepare nuts for sandwiches, first chop very fine, then pound to a paste; salt well, mix well with butter and spread; or mix finely chopped nuts with just enough mayonnaise or cream salad dressing to slightly moisten. —August Woman's Home Companion.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her that she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. —Free trial bottles of this Great Discovery at P. H. Franklin's Drug Store. Only 25¢ and \$1.00 every bottle guaranteed.

Marshall Republican complains that many of the streets of Marshall are poorly lighted, which fact should be noted. Light is a good thing in any town, but especially in Marshall, our county seat. —Slater Index.

Notice.

On August 2d, 1899, the undersigned will continue to do a Loan, Abstract of title, and Insurance business, at his office to be in the "Hotel Hartwick," at the north west corner of the square, where I will be glad to see all of my old friends and patrons, and as many new ones as possible. Will own and operate my own abstract books, and guarantee thorough satisfaction in any business, in my line, entrusted to me. Call and see me.

Respectfully,
J. W. Bryant.

Large Charity.

It is computed that more than \$25,000,000 has been given or bequeathed during the last year to educational institutions and libraries in the United States. An observing contemporary notes that one benefit from the transfer of this great sum to uses of public education is that by helping to make independent of State and local aid

the institutions which it goes to, it helps to make their teaching less subject to the influence of transient public sentiment. Where the support of a university depends on the will of a legislature, the instruction that it gives in such subjects as political economy, social economy, and history is liable to be affected by political considerations; but an institution that stands on its own pecuniary legs, has nothing to consider in its choice of doctrine further than to teach what makes most for sound learning and coincides most accurately with apparent truth. E. S. Martin in "Harper's Weekly."
